BSc Artificial Intelligence & Data Science Admission 2026

About the Program

The Bachelor of Science (B.Sc.) in Artificial Intelligence and Data Science in BIT Jaipur is a four-year undergraduate degree designed to prepare students for careers in AI and data-driven technologies. This program combines strong foundations in computer science, mathematics, and statistics with specialized training in several key areas:

- Artificial Intelligence and Machine Learning
- Data Analytics and Data Engineering
- Natural Language Processing
- Deep Learning
- Computer Vision
- Big Data Technologies

The program emphasizes both theoretical knowledge and hands-on practical experience. Students will learn programming, data structures, algorithms, database systems, and software development. The curriculum includes project-based learning, internships, and real-world applications across industries like healthcare, finance, e-commerce, and smart systems.

Career Opportunities: Graduates can work as Data Scientists, AI Engineers, Machine Learning Engineers, Data Analysts, and Research Associates. They can also pursue higher studies and research in emerging technological fields.
