Department of Electrical and Electronics Engineering

BIT Jaipur

Publications

Book Chapter Contribution with International Publisher

1. Book Chapter "Maximum Power Point Tracking in Solar PV Systems: A State of the Art" in book entitled Maximum Power Point Tracking: Background, Implementation and Classification. June 2020, ISBN: 978-1-53618-164-7. Publisher: Nova Science Publishers, Inc., NY, USA.

International Journals

1. "A State of art review on Conventional, Soft Computing & Hybrid Techniques for shading Mitigation in PV Applications," International Transactions on Electrical Energy Systems [Accepted for publication], 2020.

2. "Enhanced Loadability and Inapt Locations," International Journal of Recent Technology and Engineering, Volume-8, Issue-4, November 2019.

3. "Tracking of Maximum Power Point in Solar PV (SPV) Systems using Perturb & Observe (PO) and Incremental Conductance (IC) Method," International Journal of Innovative Technology and Exploring Engineering, Volume-8, Issue-12, October 2019.

4. "Simulation and Experimentation of a Single Stage Boost Inverter," International Journal of Engineering and Advanced Technology (IJEAT), Vol-8, No-6, 2019: 1767-1774.

5. "Modeling and Simulation of Solar Photovoltaic Application Based Multilevel Inverter with Reduced Count Topology for Stand-alone System," Electrical & Computer Engineering: An International Journal (ECIJ), 6 (2017): 1-12.

6. "Shading mitigation techniques: State-of-the-art in photovoltaic applications," Renewable and Sustainable Energy Reviews, 78 (2017): 369-390. *Link:* https://www.researchgate.net/publication/316685623_Shading_mitigation_techniques_State-of-the-art_in_photovoltaic_applications

7. "A different approach to design non-isolated DC–DC converters for maximum power point tracking in solar photovoltaic systems," Journal of Circuits, Systems and Computers, 25, no. 08 (2016): 1630004. *Link:* https://www.researchgate.net/publication/294086114_A_Different_Approach_to_Design_Nonisolated_DC-DC_Converters_for_Maximum_Power_Point_Tracking_MPPT_in_Solar_Photovoltaic_Systems

8. "Maximum power point tracking (MPPT) techniques: Recapitulation in solar photovoltaic systems," Renewable and Sustainable Energy Reviews, 54 (2016): 1018-1034. *Link:* https://www.researchgate.net/publication/284131049_Maximum_power_point_tracking_MPPT_techniques_Recapitulation_in_solar_photovoltaic_systems

9. "A comprehensive assessment of maximum power point tracking techniques under uniform and non-uniform irradiance and its impact on photovoltaic systems: A review," Journal of Renewable and Sustainable Energy, 7, no. 6 (2015): 063113. *Link:* https://www.researchgate.net/publication/301341932_A_comprehensive_assessment_of_maximum_power_point_tracking_techniques_under_uniform_and_non-uniform_irradiance_and_its_impact_on_photovoltaic_systems_A_review

10. "Comprehensive analysis of maximum power point tracking techniques in solar photovoltaic systems under uniform insolation and partial shaded condition," Journal of Renewable and Sustainable Energy, 7, no. 4 (2015): 042701. *Link:* https://www.researchgate.net/publication/284750837_A_comprehensive_assessment_of_maximum_power_point_tracking_techniques_under_uniform_and_non-uniform_irradiance_and_its_impact_on_photovoltaic_systems_A_review?_iepl%5BviewId%5D=aHh5xCKhTwjnbRlTntx1Bl2w&_iepl%5BprofilePublicationItemVariant%5D=default&_iepl%5Bcontexts%5D%5B0%5D=prfpi&_iepl%5BtargetEntityId%5D=PB%3A284750837&_iepl%5BinteractionType%5D=publicationTitle

International Conferences

1. "Impact of COVID-19 and Nine-Minute Call on Indian Power Sector: Study of Blackout Prevention."
2. "Design and fabrication of two stage 2 kVA inverter using push-pull topology," 10th IEEE International Conference on Communication and Signal Processing [ICCSP 2020], TN, India, 9-11th April 2020.
3. "Simulation and Analysis of Solar Based Water Pumping System for Hydraulic Actuated Load," 2019 2nd International Conference on Power and Embedded Drive Control (ICPEDC), Chennai, India, 2019, pp. 333-341.
4. "Implementation of Perturb and Observe Method of Maximum Power Point Tracking in SIMSCAPE/MATLAB," IEEE International Conference on Intelligent Sustainable Systems, ICISS 2017.
5. "Harmonics Mitigation of P&O MPPT Based Solar Powered Five-Level Diode-Clamped Multilevel Inverter," IEEE International Conference on Innovations in Control, Communication and Information System, 2017.
