**BIT Jaipur Fee Refund and Withdrawal Policy - 2026-27**

**Who Does This Apply To?**

This policy is for newly admitted students in undergraduate (UG), postgraduate (PG), and Ph.D. programs at BIT Mesra and its Extension Centers for the 2026-27 academic year.

**Important:** This policy does NOT apply to NRI students, OCI students, or Foreign National (FN) students.

---

**What Happens When You Withdraw?**

You can get a refund of your fees if you decide to leave your program after admission. The amount you get back depends on **when** you withdraw.

There are two different scenarios based on **when you took admission** - before classes started or after classes started.

---

**SCENARIO 1: You Got Admission BEFORE Classes Began**

**Withdrawal Before Classes Start**

- **What you get:** Your full fee back minus Rs. 10,000 as a processing charge
- **Example:** If you paid Rs. 1,00,000 and withdraw before day 1 of class, you get Rs. 90,000 back

**Withdrawal Between Day 1 and Day 7 (After Classes Start)**

- **Condition:** There must be another round of admissions coming up where your seat can be filled
- **What you get:** 80% of the fees you paid at the time of admission
- **Important:** The refund amount is rounded up to the nearest Rs. 100
- **Example:** If you paid Rs. 1,00,000, you get 80,000. If the 80% comes to Rs. 80,050, it becomes Rs. 80,100

**Withdrawal After 7 Working Days From Class Start**

- **What you get:** 60% of the fees you paid at the time of admission
- **Rounding:** Again, rounded up to the nearest Rs. 100
- **Example:** If you paid Rs. 1,00,000, you get Rs. 60,000 back

**Withdrawal After Admission Process Is Closed**

- **What you get:** Only your caution money back (no other refund)
- **Caution money:** This is the security deposit you gave, typically a small amount

---

**SCENARIO 2: You Got Admission AFTER Classes Already Started**

**Withdrawal Within 7 Working Days of Your Admission**

- **Condition:** There must be another round of admissions coming up where your seat can be filled
- **What you get:** 80% of the fees you paid at the time of admission
- **Rounding:** Rounded up to the nearest Rs. 100

**Withdrawal After 7 Working Days From Your Admission Date**

- **What you get:** 60% of the fees you paid at the time of admission
- **Rounding:** Rounded up to the nearest Rs. 100

**Withdrawal After Admission Process Is Closed**

- **What you get:** Only your caution money back

---

**Important Rules You Must Follow**

**You Must Apply for the Refund**

- You cannot just leave and expect money back automatically
- You must submit a formal application to withdraw
- In your application, you must explain specific reasons why you are permanently leaving the program
- The refund will be processed "in due course of time" - meaning it may take some time

**When Will You Get Your Money?**

- After your application is approved
- The exact timeline is not specified, so it could be weeks or months
- You should follow up with the administration office

**How Amounts Are Rounded**

- All refund amounts are rounded **up** to the next Rs. 100
- For example: Rs. 80,050 becomes Rs. 80,100; Rs. 60,001 becomes Rs. 60,100

---

**Special Situations**

**Situation 1: You Change Your Center or Program (Same Admission Round)**

If you want to upgrade from one extension center to another center, or from one program to another program in the same admission process:

- **Processing charge:** Rs. 1,000 only
- **What happens to your fees:** The balance from your previous program is adjusted in your 2nd semester fees of the new program

**Example:** You paid Rs. 50,000 for Program A and then switch to Program B (which costs Rs. 60,000). Your Rs. 50,000 (minus Rs. 1,000 processing charge) = Rs. 49,000 is adjusted toward your 2nd semester of Program B.

**Situation 2: You Got Admission Through Two Different Admission Processes**

This means you got selected in one admission process, then later got selected again in a completely different admission process (not an upgrade).

**What happens:**

1. You must pay the **full fees** of your new program - no discount
2. The fees you paid toward your first program are adjusted in your **2nd semester fees** of the new program
3. But Rs. 1,000 processing charge is still deducted from your first program fees
4. You must withdraw from your first program through the **ERP Portal immediately** after taking admission in the new program
5. After the admission closure is announced, you must apply separately to the **Admission Office** for the fee adjustment

**Example:**

- Program A costs Rs. 50,000 (you paid)
- Program B costs Rs. 60,000 (you get selected later)
- You pay full Rs. 60,000 for Program B
- In 2nd semester of Program B, Rs. 50,000 - Rs. 1,000 = Rs. 49,000 is adjusted from your semester fees

- You use the ERP Portal to officially withdraw from Program A

---

**Quick Reference Guide**

| When You Withdraw | How Much You Get | Conditions |
|---|---|---|
| Before classes start | Full fee - Rs. 10,000 | None |
| Days 1-7 of classes | 80% of your admission fee | Next admission round must exist |
| After Day 7 of classes | 60% of your admission fee | None |
| After admission closes | Only caution money | None |
| Change center/program (same round) | Balance adjusted next semester | Rs. 1,000 deduction |
| Two different admission processes | Full fees of new program | Rs. 1,000 deduction from old fees |

---

**Things to Remember**

✓ You MUST apply - refunds don't happen automatically

✓ Give clear reasons when you apply

✓ Refunds take time to process - be patient

✓ All amounts are rounded UP to nearest Rs. 100

✓ Caution money is always returned (the security deposit)

✓ Process charges (Rs. 1,000 or Rs. 10,000) are always deducted

✓ This policy is only for 2026-27 academic year - it may change next year

✓ NRI, OCI, and Foreign National students have different rules (not mentioned here)
